

The Public Schools of Brookline

2014-2015 School Surveys

Final School Report

Dear Brookline Community,

The PSB School Surveys were administered online in January, 2015 to all parents, guardians, and active school-based staff members in the system. Respondents were asked to share feedback on school culture, excellence in education, school leadership, and staff/student engagement.

The surveys were designed to be used alongside many other sources of data to provide constructive feedback to enable individual schools and the system to reflect on areas of strength and areas for growth. The information included here, along with open-text comments, has been shared with all school and system leaders.

This is the first time we have conducted a standard system-wide school survey; as such, these results serve as baseline indicators. We thank you for your participation and look forward to using this and related information to enable continuous improvement efforts in your school and the entire school system.

Bill Lupini, Superintendent

Brookline High School

School Type: 9-12

Enrollment: 1,891

Respondent Profile:

Responses: 174 staff (61%)
491 families (30%)

Family Respondents:

Grades: 33% 9th
31% 10th
22% 11th
26% 12th

Years at School: 25% 1st Year
44% 2-4 Years
19% 5+ Years

How to read this report

This report is a single piece of information about a complex system. It is designed to give some information on opportunities and challenges in our schools and our system. This report can tell a reader how a subset of families and staff felt about various aspects of their school at the time they completed the survey. This report does not provide facts and cannot tell a reader whether or not a school is “good”.

Percent Agree or Disagree indicates the percent of respondents who answered Agree/Strongly Agree or Disagree/Strongly Disagree to a given statement.

School Average indicates the average numerical response among all respondents. These averages can help the reader understand how strongly respondents felt about a statement. Small differences between averages are not meaningful. The scale used was:

1
Strongly
Disagree

2
Disagree

3
Neutral

4
Agree

5
Strongly
Agree

~~
Not Applicable
(N/A)

Staff Survey

School Culture

<i>% Respondents who:</i>	Agree	Disagree	School Average
As a staff member, I trust this school's administration.	58%	17%	3.5
